Our Current Efforts to Prevent and Reduce Risk to Our Residents and Staff	
<ul style="list-style-type: none"> • MSCC remains on "Lock Down" – meaning only staff and essential vendors and consultants are allowed in the building. • Every staff member has their temperature checked and must answer questions regarding any signs and symptoms at the beginning of each shift. • All staff members are wearing masks while at work (and are encouraged to wear a mask while in public places –like the grocery store) • All essential vendors and consultants must have their temperature checked, answers questions regarding signs or symptoms, and wear a mask and gloves the entire time they are in the building. • Every resident has their temperature and oxygen saturation rate checked three-times per day. • There are no congregate activities in the building. Residents are taking their meals in their rooms and the Activities Department is providing in-room therapy. • Residents are encouraged to maintain social distancing and visitation in another resident's room is not allowed. • All staff members are following standard precautions and hand hygiene is strictly encouraged and enforced. • The Environmental Services Department is cleaning surfaces with EPA approved chemicals rated to kill the COVID-19 virus. 	

*PRN (part-time) staff member that did not come into contact with residents. **A Consultant tested positive on 05/20/2020 that did not come into contact with residents.**
