Total residents and staff with new-onset of respiratory illness	2

Additional Information

The CDC has issued new guidelines for healthcare facilities. Under these new guidelines, MSCC is not considered to be in “outbreak status”. In addition, new guidance allows for self-check in when entering the building and eliminating temperature checks. The new self-check-in station is located just inside the front door of the facility. **Visitors are still required to wear a mask while traveling to and from the resident’s room.** We are no longer doing asymptomatic testing on staff members or residents.

We do ask visitors to avoid coming to the facility if you have a fever, feel ill or have a known and prolonged exposure to someone with COVID or the Flu.

You will be immediately notified by telephone if your love one tests positive for the virus. Please check this website each Friday for the latest updates, but **please note the message will not change unless we have confirmed cases.** You can immediately check for updates by looking at the “At a Glance” note at the top of this page. As always, if you have questions about what we are doing to keep your loved one safe or information on the latest booster vaccines available, please call the facility at **601-420-7760**.
